Skills Summary

Driven computer science student with strong **communication** skills and proven ability to work effectively both **independently** and in **team-based** environments.

- **Languages:** Java, JavaScript, Python, C, C++, HTML, CSS, SQL
- **Frameworks & Platforms:** Next.js, Node.js, React, Azure, Entra ID, Power Automate, Supabase, Vercel
- **MS Office:** Word, Excel, PowerPoint, Outlook, Access

Projects

InternLinked | *JavaScript, React, HTML, CSS, Supabase, SQL*

January 2026

- Designed and developed a full-stack web app to manage internship applications with user authentication, data storage, and document tracking. Implemented database schema with SQL queries to store and retrieve data.
- [Github](#) | [DevPost](#)

EyeTag | *Python, OpenCV, Mediapipe, Pytorch, Machine Learning*

April 2026

- Built an eye-tracking arcade shooter in Python using MediaPipe, iterating across ML approaches: V2, a custom ridge regression (22-feature iris landmark vectors, session-specific calibration, custom EMA smoother) and V3, a PyTorch feedforward neural network (GeLU activations, Adam optimizer, MSE loss).
- [Github](#)

My Website | *Typescript, Next.js, Tailwind CSS, Framer Motion*

March 2026

- Designed, built, and deployed a personal portfolio website with animations, a custom design system, and dark/light mode to showcase me, my projects, and experience. Deployed via Vercel

Professional Experience

HME Medical Distribution LTD.

June 2025 - August 2025 & May 2026 - Present

Information Technology and Marketing Intern

- Built and deployed automated reporting pipelines using JavaScript and Power Automate, with Azure Functions
- Maintained and updated 3 company websites (HTML + CSS), supporting new products and a company rebrand
- Built a production repo of 65+ custom Node.js functions connected to the company's CRM System and developed an internal HTML/CSS/JS debugging and visualization dashboard, mapping the 65+ custom functions and 170+ workflow dependencies to help the team trace and debug automation chains.
- Configured an internal AI copilot agent for search across technical service documents.
- Designed and led an internal phishing awareness campaign across 130+ employees using Microsoft Entra ID to manage and target accounts; configured, deployed, and analyzed data to present actionable recommendations.

Richmond Youth Basketball League

October 2022 – May 2024

Basketball Coach and Referee

- Led practices, managed games, and communicated with players, parents, and peers to maintain a positive and focused environment.
- Enforced rules and resolved conflicts under pressure with sharp decision-making.

Education

Simon Fraser University - Bachelor of Applied Science

September 2024 - April 2028 (expected)

Major: Computing Science

Minor: Business

Relevant Coursework: Data Structures & Algorithms, Computer Systems, Intro to Software Engineering, Applied Linear Algebra, Business Technology Management

Awards & Achievements

- BCHSBBA Scholarship
- High School Honour Roll (2019 - 2024)
- Palo Alto Networks: Network Security Expert certification
- Gauss Math & Pascal Math Contest Award
